From the iconic Sydney Harbour to more than 100 beaches to picturesque mountains to arts and cultural festivals, Sydney has something for everyone.

A destination like no other

STUDYING IN SYDNEY, AUSTRALIA

If you're looking for a safe and friendly destination offering a dynamic, multicultural experience while you study, look no further than Sydney.

The oldest city in Australia, Sydney is the country's economic and financial hub, and is home to the regional headquarters of around 500 multinational companies. Wherever you choose to develop your career, Sydney is the perfect place to start.

Australia is famous for its relaxed lifestyle, astounding landscapes, and high standards – particularly in education and health care. First inhabited by Indigenous people at least 50,000 years ago, Australia has attracted people from more than 200 countries to study and migrate. Wherever you come from, you are likely to find people from your country who have made their home 'Down Under'.

WELCOME TO OUR HOME

Located only 15 kilometres from Sydney's central business district, Macquarie is easily accessible by public transport. We offer our students a full accommodation service, including free airport pick-up when you first arrive. You'll also be able to settle in and make new friends before classes start during our international orientation program.

WE MAKE IT EASY

Macquarie University participates in the Australian Government's streamlined student visa processing system, available to only the highest-quality education providers. This means that if you choose to study at Macquarie, you will likely need to produce fewer documents and expect faster processing times when applying for a visa.

MOST LIVEABLE CITY ON THE PLANET

(PwC 'Cities of Opportunity', 2014)

4TH BEST STUDENT CITY IN THE WORLD

(QS 'Best Student Cities in the World', 2015)

6TH SAFEST CITY IN THE WORLD

(Economist Intelligence Unit's 'Safe Cities Index', 2015)

Macquarie University seeks students who have an enquiring and open mind with a desire to make real and lasting impact within society at community or global levels.

Your journey starts here

WELCOME TO MACQUARIE

A world of opportunities opens up when you're taught by researchers ranked in the top one per cent globally and you're given the chance to get real, practical experience before you leave university.

That's exactly what we offer at Macquarie University.

From our beginnings, we've nurtured the brightest minds to reach their full potential. We pioneered interdisciplinary learning and welcomed students from diverse backgrounds long before other universities saw their potential.

Today, we partner with global companies in dynamic sectors including information technology and health care to expand our students' opportunities beyond the classroom through internships and executive training.

What that means for you is that at every step of your journey with us, you'll be encouraged to question the norm and empowered to break new ground. You'll be supported by world-leading academics as you reach your own potential – and exceed it.

Macquarie is a centre where people with distinct perspectives interact and extraordinary ideas take shape. A training ground for new generations, we help our students grow into well-rounded world citizens and future leaders.

So ask yourself:

- Am I naturally curious and open to diverse intellectual perspectives?
- Am I excited by the possibility to grow academically and professionally?
- Am I ready to become a world citizen with a global passport?

If this sounds like you, then we can't wait to see how far a Macquarie degree can take you.

Macquarie University is located just 15 kilometres from Sydney's city centre in one of the largest business and technology precincts in the Southern Hemisphere.

At Macquarie, you can build on your degree with practical experience, internships and more, giving you unmatched career opportunities.

Pursue your dreams

WHERE CAN A MACQUARIE DEGREE TAKE YOU?

“At Macquarie there’s an emphasis on skill sets and practical learning, rather than just grades.”

James Rotanson

Bachelor of Arts – Media graduate from Indonesia

Digital designer and front-end developer, Co-op

Vice-Chancellor’s International Scholarship recipient

Born in Indonesia and completing his International Baccalaureate in Singapore, James Rotanson came to Macquarie in 2012 to study Bachelor of Arts – Media with the support of a Vice-Chancellor’s International Scholarship.

While at Macquarie, James worked hard to enhance his degree with an impressive catalogue of extracurricular activities. This approach paid off when Australian retailer Co-op offered him sponsorship and a full-time job before he had even graduated.

“As an international student, I arrived with no networks or connections in Australia,” James says. “I had to be smart and take as many opportunities as possible. I worked at the uni, in design agencies and cafés, and got my hands dirty with marketing, programming, event management and business development leading a student group.”

James is proud to have made a design career a reality, and credits Macquarie for preparing him for the Australian workforce.

“I can safely say the facilities at Macquarie exceed the standards in the working world,” James says. “And the guidance and direction I got from the professionals teaching at Macquarie is something I’ve missed after jumping into the real industry.”

James says students should be ready to develop their self-discipline and initiative.

“At the end of the day, a university degree is not a destination – it’s a learning experience you build on every day,” he says.

Bachelor of Arts – Media (2015)

Media internship in Romania

Grapeshot (Macquarie student magazine)

AIESEC student group

“At Macquarie, learning goes beyond the classroom. Inter-cultural communication is the very air you breathe.”

Sabine Keller

Master of International Communication graduate from Germany
Corporate and Government Affairs Associate, Janssen
Macquarie University International Scholarship recipient

Originally from Germany, Sabine Keller completed a Master of International Communication at Macquarie University and is now living and working as a Corporate and Government Affairs Associate at Janssen, pharmaceutical companies of Johnson & Johnson in Sydney.

After completing a bachelor degree, the marketing/sales position she got at a well-known company in Germany turned out not to be what she expected. “Friends told me to stay with the company for two years as it would open doors to me later,” she says. “But I really wanted to follow my passion and do something I considered meaningful.”

Sabine was encouraged to explore study options in Australia and says she was enchanted by the Master of International Communication. She received the Macquarie University International Scholarship and also participated in the prestigious Global Leadership Program (GLP).

“The GLP Think Tank sessions and practical experience exposed us to some of the most controversial current issues in our world, and enabled us to step up with credibility to help tackle them,” she says. “The program really contributed to me growing as a person.”

As part of her studies, she completed an internship at Janssen, a subsidiary of Johnson & Johnson whose Australian headquarters are located near the Macquarie campus. After graduation, Janssen offered her a full-time position.

“My initial job tasks resembled some of the assignments I had to complete at Macquarie, which shows how practical the courses at Macquarie really can be,” she says.

Master of International Communication (2013)

Vice-Chancellor's Commendation
for Academic Excellence

Global Leadership Program

Internship at Janssen

Part of what makes Macquarie different is that we allow you the freedom to explore your interests across a range of subjects, giving you an advantage when you start your career.

Study your way

MACQUARIE UNIVERSITY COURSES

Over the following pages, you'll find a wide range of courses that will help you reach your career goals. First is a list of all of our courses by area of study. Next is a more detailed section on certain featured courses that will really give you the edge for your future. For more information on all of our courses, visit courses.mq.edu.au

Academic entry requirements

We want the best and brightest minds to succeed at Macquarie. All of our courses have specific entry requirements that you will need to fulfil before being admitted, which you will find listed in the pages that follow. See page 114 for English language requirements.

UNDERGRADUATE

For direct admission into an undergraduate (bachelor) course, you will need one of the following qualifications:

- **A recognised secondary (high school) qualification**
See below for a selection of accepted high school qualifications, with indicative ATAR equivalencies.
- **A recognised university foundation course**
Macquarie accepts qualifications from most Australian universities, as well as some approved international providers.
- **A recognised two- or three-year diploma**
Equivalent to Australian diploma or advanced diploma levels.
- **At least one year of a university degree from a recognised institution**
Equivalent to Australian bachelor or masters degree levels.

The scores you have achieved in this qualification will be converted into an Australian Tertiary Admissions Rank (ATAR). Each undergraduate course at Macquarie has a minimum ATAR requirement for entry, which you will find in the following pages. Remember that the ATAR for each course can change from year to year.

DON'T MEET THE REQUIREMENTS?

If you haven't quite met the requirements for your selected course, don't worry. Our goal is to help you to be the best you can be, which is why we offer new pathway programs to suit your needs. Macquarie University International College can help prepare you for success in a Macquarie course and beyond. See page 110 for details.

POSTGRADUATE (COURSEWORK)

The course listings in this guide will note the specific entry requirements for our postgraduate (masters) coursework degrees. In most cases, entry requires a bachelor degree equivalent to level 7 on the Australian Qualifications Framework (aqf.edu.au/aqf-levels). Our admissions team will determine whether your bachelor degree is equivalent to level 7 when you apply to Macquarie.

For some courses, your degree will need to be in a specific or related area. Others require a particular GPA (out of 4.0). The table below provides indicative GPA equivalencies.

MACQUARIE UNIVERSITY INDICATIVE GPA EQUIVALENCIES				
GPA (OUT OF 4.0)	2.25	2.5	2.75	3.0
Bangladesh	Cumulative/final GPA

Thailand	2.25	2.5	2.75	3.0
Vietnam	5	5 or 6	5 or 6	7

For further accepted qualifications, see mq.edu.au/postgrad-academic-requirements

WHAT'S AN ATAR?

An Australian Tertiary Admission Rank (ATAR) is the primary ranking used to determine admission of students to Australian universities. It ranks the overall academic achievement of a student in the final year of high school against other students.

WHAT'S A GPA?

A grade point average (GPA) is a calculation reflecting the overall grade of a student. Based on units completed at Macquarie, it does not take into account recognition of prior learning.

Business

As a graduate in the business field, you'll be sought after by leading companies and NGOs across Australia and around the world. That's because Macquarie equips you with the skills that employers want.

Our interdisciplinary approach gives you the chance to combine courses and get more hands-on experience through internships with some of Australia's best companies. We offer flexibility so you can choose to generalise or specialise in an area that interests you – be it business, economics, commerce, accounting, finance, actuarial studies, analytics, marketing or management.

WHY STUDY BUSINESS AT MACQUARIE?

NETWORKING

Access internships with global companies including Cochlear, CPA, Deloitte, GlaxoSmithKline, Hitachi Australia, PwC and Toyota Financial Services

EMPLOYABILITY

We have developed specific programs in response to employers' needs, ensuring you graduate ready for work

GLOBAL RECOGNITION

Top 100 in the world for accounting and finance;
top 150 in the world for business and management studies

(QS World University Rankings by Subject, 2015)

“Macquarie’s degrees are well structured and recognised. The best thing about my degree is the varied range of subjects offered – they are exactly what I wanted to study and are all very interesting. Economics is one of the fields that will never die out – it’s central to the understanding of business, trade, markets and governments. My goal is to work as an economist or economic adviser and my focus is on the World Bank.”

Upasana Shah
Master of Economics student from India

MGSM
MACQUARIE UNIVERSITY
GRADUATE SCHOOL OF MANAGEMENT

Established more than 45 years ago, the Macquarie University Graduate School of Management (MGSM) is Australia's leading management school with a global reputation for excellence in management education. Our programs prepare you to operate at the frontier of business, providing a framework and a foundation for success in leadership across any function in any country.

MGSM's mission and practice ensure that you experience contemporary, experiential teaching, learning and research, equipping you to thrive in real-world management settings.

MGSM has the prestigious Association to Advance Collegiate Schools of Business (AACSB) accreditation and is recognised internationally for outstanding academic quality that greatly strengthens the career development and remuneration of our graduates.

WHY STUDY AT MGSM?

EXPERIENTIAL
LEARNING

MGSM's faculty have a diverse mix of corporate and academic experience, so you have an opportunity to engage your academic learning in practical applications

LEADING
PARTNERS

We partner with domestic and global corporates and renowned universities to deliver curricula that are grounded in industry and reality

GLOBAL
RECOGNITION

Our MBA was ranked Australia's number 1 MBA program by the *Financial Times* in 2015 and number 49 in the world by *The Economist* in 2014.

You may be eligible for Recognition of Prior Learning credits to reduce your course duration – mq.edu.au/international-RPL
 You might be able to reduce your tuition fee by applying for one of our scholarships – mq.edu.au/international-scholarships

* The GPA listed must be from a recognised bachelor degree, and other entry requirements may apply. Check the course link for details.

NUMBER 1 MBA IN AUSTRALIA**Master of Business Administration**

Ranked as Australia's leading MBA (*Financial Times* Global MBA Ranking, 2015), our MBA is a transformational experience. Designed for professionals with senior management and leadership potential who already hold positions of responsibility, this program extends your existing knowledge, skills and experience through the analysis of problems and challenges facing industries and organisations.

Covering all key aspects of business management, our MBA curriculum is grounded in industry reality – which, combined with a highly practical approach, bridges the gap between theory and real-world application. You will have the ability to tailor your program to suit your specific needs, objectives and career aspirations by choosing six electives from a broad range of units.

KEY FEATURES:

- You can undertake this program full-time or part-time, or opt for a one-year accelerated course pending academic approval.
- You'll have the opportunity to develop valuable management skills through a 10-week project-based internship.
- Our exchange agreements with universities around the world offer you the opportunity to study part of your program abroad.
- Our faculty are dedicated solely to graduate education and are highly qualified, possessing extensive industry experience.

WHAT YOU CAN STUDY: accounting for management, economic context of management, financial management, information and decision analysis, marketing management, operations management, organisational behaviour, strategic management.

ENTRY REQUIREMENTS:

- Australian level 7 bachelor qualification or recognised equivalent.
- Two years full-time equivalent work experience at a managerial/professional level.

INTEGRATED INTERNSHIP**Master of Management**

The MGSM Master of Management is designed with the early career professional in mind and develops the skills, knowledge, experience and business connections you need to pursue a career in management. The program provides deep experiential learning within contemporary business settings and incorporates a compulsory management professional placement component. The professional placement takes a holistic approach to developing the skills you need to be successful in global, diverse, dynamic and challenging work environments.

KEY FEATURES:

- You can undertake this program full-time or part-time, or opt for a one-year accelerated course pending academic approval.
- With the early career professional in mind, this program consists of 16 units of study, including six elective units.
- Compulsory professional experience equivalent to two units of study, as well as further internship opportunities.
- If you have an undergraduate business degree, you may be able to complete the program in as little as 18 months.
- Taught by the same faculty that teaches the MBA program.

WHAT YOU CAN STUDY: data-based decision making, economics and markets, financial markets and valuation, financial statements and analysis, marketing and customer value, operations and value stream design, people and organisations, strategy frameworks and evaluation.

ENTRY REQUIREMENTS:

- Australian level 7 bachelor qualification or recognised equivalent.

“For me, Macquarie is a role model for quality education. The lecturers and tutors are very supportive. They acknowledged that English is my second language and provided effective strategies and feedback to improve my learning. The practicums gave me opportunities to learn about different cultures and the Australian schooling system, as well as to develop my own teaching strategies.”

Suet Mie Lee
Bachelor of Education (Early Childhood Education)
(Birth to 12) graduate from Malaysia
Early childhood teacher, Banksia Cottage Childcare Centre
at Macquarie University

Education

Educators shape the future. They change destinies, enrich lives and empower individuals to realise their full intellectual and social potential. Our University-wide teacher education program gives you a broad world view, an understanding of your chosen area of study within a wider social context, and qualifications that enhance your employment opportunities in primary and secondary teaching, as well as special education.

Macquarie is a leader in education as well as early childhood teaching and research. Our teaching academics are experts in the field, frequently providing specialist opinions and media commentary, while our Mia Mia Child and Family Study Centre – a world-renowned long day care centre – offers a unique range of learning and research opportunities for students.

WHY STUDY EDUCATION AT MACQUARIE?

CAREER
OPPORTUNITIES

Give your career an edge in early childhood education,

Bachelor of Teaching (Early Childhood Education)

Secure a career within this in-demand field as a teacher working with children aged from birth to five years within prior-to-school settings such as childcare or preschools. Develop the necessary skills and extensive professional training to work with children, families and communities to provide quality educational experiences for young children. Early childhood teachers are also sought for consultancy and professional development work in children's services.

CAREER OPTIONS INCLUDE: educational officer in government and community programs, long day care centre teacher, preschool teacher, teacher/director in prior-to-school settings

KEY FEATURES:

- Learn from the best – Macquarie is recognised as a leader in early childhood education.
- Get practical training and experience in prior-to-school services.
- Recognition of prior learning is given if you hold a Diploma of Children's Services or equivalent.
- You may be able to study this course by distance in your home country.

WHAT YOU CAN STUDY: child development preschool to adolescence, early childhood pedagogies and curriculum, health and wellbeing, history and philosophy of early childhood, infancy and early development, management and leadership – the sociopolitical context of teaching, play and inquiry in early childhood, the arts in early childhood contexts.

WORLD TOP 100 IN LINGUISTICS

Master of Applied Linguistics and TESOL

Secure a highly regarded qualification from one of the world's top 100 universities in linguistics (QS, 2015) covering theoretical and methodological issues relevant to practitioners whose work is concerned with applied language study and teaching English as a second or foreign language.

CAREER OPTIONS INCLUDE: language teacher or roles that require in-depth understanding of language and effective communication with colleagues, clients, patients or students.

KEY FEATURES:

- Allows you the opportunity to study with one of Australia's largest and most diverse linguistics departments, which features four research centres.
- Recognised and endorsed by leading employment-related bodies National ELT Accreditation Scheme (NEAS); Board of Studies, Teaching and Educational Standards NSW (BOSTES); and the Adult Migrant English Program (AMEP).
- Work experience is not required; however, relevant experience may result in recognition of prior learning credit.
- You may be able to study this course by distance in your home country.

WHAT YOU CAN STUDY: communicative grammar, exploring discourse in context and action, language teaching methodologies, language testing and evaluation, linguistics and language teaching, planning and programming in TESOL, pragmatics and inter-cultural communication, research methods in language study, second language acquisition.

ENTRY REQUIREMENTS:

- Australian level 7 bachelor qualification or recognised equivalent.

PROFESSIONAL DEVELOPMENT

Master of Education

Enhance your knowledge, skills and professional development. This course will benefit anyone who is involved in learning and teaching, educational development and design, or administration and support in educational contexts. These could include schools, vocational education and training providers, universities and other higher education providers, government, non-government organisations, or industry. Note: This is not a teaching qualification.

CAREER OPTIONS INCLUDE: This degree is designed to assist career advancement of teachers and those working in education and policy development in the public or private sector.

SPECIALISATIONS: Advanced Practices in Learning and Teaching, Higher Education, ICT in Education.

KEY FEATURES:

- Provides professional development of teachers and others with an interest in education studies.
- You can apply for up to four units of credit based on previous postgraduate studies, professional development and training, and work experience.
- You may be able to study this course by distance in your home country.

WHAT YOU CAN STUDY: current topics in education, curriculum studies, educational institutions as organisations, higher education contexts and futures, innovation and change in educational organisations, introduction to educational research, learning and teaching in higher education, performance and regulation in higher education.

ENTRY REQUIREMENTS:

- Australian level 7 bachelor qualification or recognised equivalent in education, or Australian level 7 qualification or recognised equivalent with 18 months full-time equivalent work experience relevant to the chosen specialisation.

Bachelor of Engineering (Honours)

This comprehensive four-year course prepares you to work as a professional engineer. It provides a strong foundation in basic sciences, mathematics and core areas of engineering. The course is suitable for those interested in careers in electronics engineering, telecommunications engineering, mechanical engineering and related fields, or the development of creative and practical technological solutions for the benefit of society. There is a strong focus on practical learning, which is enhanced by our campus location in one of Australia's largest high-tech precincts.

CAREER OPTIONS INCLUDE: automation and industrial instrumentation engineer; business systems design manager; computer design and manufacturing specialist; computer, wireless and mobile telephone networking engineer; electronics design and manufacturing specialist; engineering researcher; mechanical design engineer; packaging and industrial design engineer; product design engineer; radio frequency engineer; telecommunications and networking engineer.

MAJORS: Computer Engineering, Electronics Engineering, Mechanical Engineering, Mechatronic Engineering, Software Engineering, Telecommunications Engineering, Wireless Engineering.

KEY FEATURES:

- A common first year enables you to transfer easily between engineering majors.
- The Engineering Industry Partnership Program creates opportunities for you to engage with our industry partners throughout your course.
- Focus on industry experience culminating in a 16-week final-year project.

WHAT YOU CAN STUDY: algorithms and data structures, circuits and devices, digital fundamentals and numerical techniques, electromechanics, engineering principles and practice, mathematics, modern mechanics, physics, systems design and engineering, wireless technology and systems.

Bachelor of Information Technology

This IT degree allows you to develop skills to build and use information systems, manage data or build client-server web applications. Choose a major related to your interest and gain robust skills necessary for a successful and rewarding career.

CAREER OPTIONS INCLUDE: business analyst, database administrator, information technology consultant, programmer, project leader, systems development manager, web developer.

MAJORS: Data Science, Information Systems and Business Analysis, Software Technology, Web Design and Development.

KEY FEATURES:

- This degree satisfies the standard for the professional level of the Australian Computer Society.
- You will undertake a project in your final year to practise your knowledge and skills in a software development life cycle.
- Graduate with real-world experience through Macquarie's PACE (Professional and Community Engagement) program.

WHAT YOU CAN STUDY: advanced system and network security, cryptography, electronic commerce strategy, IT and the future of society, mobile data networks, network system design, technology management.

“Why did I come halfway around the world to study engineering at Macquarie? Well, I fell in love with the campus when I participated in a FIRST Robotics Asia-Pacific Invitational competition, which Macquarie hosted. I couldn’t have picked a better place to study engineering. The community here couldn’t be more supportive – I have been truly welcomed into the Macquarie engineering family.”

Joey Diamond

Master of Engineering

Enhance and extend your engineering skill set in this robust practical masters degree. Take your core competencies in electronics systems design and delivery to a new level, focusing on applied capabilities for project management, systems design and network performance measurement.

CAREER OPTIONS INCLUDE: careers in the high-technology, precision manufacturing, telecommunications, government and academic sectors. You will be prepared for work in research, manufacturing, product development and production, as well as in operations roles such as sales, marketing, technology management and support.

SPECIALISATIONS: Electronics Engineering.

KEY FEATURES:

- Enhance your understanding of systems engineering and fundamental engineering principles and apply these to identify and solve problems.
- Develop increased competencies in your professional practice including project management, documentation, sustainability, product life cycle, and social and ethical constraints.
- Project practice units will further develop your skills in self-learning, collaborative problem solving and communication.

WHAT YOU CAN STUDY: advanced topics in computer networks, big data technologies, cognitive radio, requirements engineering, strategic project management, systems design and engineering.

ENTRY REQUIREMENTS:

- Australian level 7 bachelor qualification or recognised equivalent in engineering (electrical, electronics, telecommunications, computer or software), computer science, information technology, applied mathematics, or a related discipline.

Master of Information Technology

Develop your skills in a specialist IT area, build on the knowledge gained in your undergraduate degree and advance your career. Whether you are an established or aspiring IT professional, this course will strengthen your understanding of underlying principles by applying them to practical, industry-focused problems.

CAREER OPTIONS INCLUDE: careers within the information and communication technologies industry.

SPECIALISATIONS: Internetworking and Cyber Security, IT Management.

KEY FEATURES:

- Developed in partnership with industry.
- Gain practical, industry-based experience through a session-long project in your second year.
- Gives you an edge over bachelor-qualified professionals in the job market.

WHAT YOU CAN STUDY: advanced system and network security, cryptography, electronic commerce strategy, enterprise application integration, mobile data networks, network system design, technology management.

ENTRY REQUIREMENTS:

- Australian level 7 bachelor qualification or recognised equivalent and equivalent of six credit points in first-year computing units.

Environment

Environmental resource management has become one of the issues of our time, and demand for top-quality environmental scientists is high. Our commitment to first-class interdisciplinary research has placed us at the forefront of environmental science study, both in Australia and internationally.

We are home to many world-renowned researchers and academics, so at Macquarie you study with people who are using their knowledge to make an impact on today's environmental issues. Our courses give you the skills to make practical, positive change in areas like conservation, resource management, sustainability, development and Earth sciences.

Master of Environment

An interdisciplinary course that's suitable if you are seeking to move into the environmental profession or are already working in the area and seeking to expand your skills and knowledge. A major focus of the degree is to teach you how to work with people from different perspectives to find environmental solutions.

CAREER OPTIONS INCLUDE: developer, environmental and sustainability educator, environmental consultant, environmental manager, natural resource manager, planner.

SPECIALISATIONS: Environmental Management, Environmental Science, Environmental Studies.

KEY FEATURES:

- Provides flexibility to transfer across specialisations.
- Offers opportunities to develop theoretical, practical and research skills.
- Provides access to government and industry linkages via guest lectures, case studies and research projects.

WHAT YOU CAN STUDY: attitudes to the environment, biophysical environments, environment and sustainability, environmental measurement and analysis, resource management.

ENTRY REQUIREMENTS:

- Australian level 7 bachelor qualification or recognised equivalent.

Master of Sustainable Development

This professionally oriented course focuses on how to effect changes towards sustainable development, and develops practical skills in leading change processes. You can enhance your capabilities in a diverse range of disciplinary options from the environment to international politics or organisational management, according to your professional needs.

Through its international case-study focus, the course addresses the needs of professionals working in aid agencies, non-government organisations, government agencies, corporations and international bodies concerned with sustainability issues.

CAREER OPTIONS INCLUDE: careers in business and industry, community development, consultancy, education and universities, government, international aid, international organisations, NGOs.

KEY FEATURES:

- Focuses on change-oriented processes for sustainable development, including organisational change, education and capacity building, and strategic planning.
- Gives you the opportunity to study some units from the Macquarie Graduate School of Management if you work in organisational sustainability.

WHAT YOU CAN STUDY: education for sustainable development, environmental decision making, environmental management practice, research methods for sustainable development, sustainable development: introductory principles and practices.

ENTRY REQUIREMENTS:

- Australian level 7 bachelor qualification or recognised equivalent.
- Three years relevant work experience.

“Macquarie is among the few universities that offer a degree in environmental planning rather than just urban planning. The academics here have proven knowledge and skill, and help us strive to be better. The beautiful campus also shows the University’s commitment to environmental sustainability. I am aiming to become an environmental planner and help shape our cities towards a sustainable path.”

Joina Matthew
Master of Environmental Planning
student from Kuwait

Health and medical sciences

Macquarie is the place to be for health. We're investing heavily in your future through the Macquarie University Hospital and the Australian Hearing Hub. You can choose a path in audiology, biomedical engineering, chiropractic science, clinical science, health sciences, medical sciences, pathology, physiotherapy, psychology, public health, speech and language sciences, or surgery. As a Macquarie graduate, you'll possess skills that will allow you to help drive innovation and improve the lives of people with various health conditions.

“At Macquarie, we get to learn from the best – the lecturers and their experiences help shape us as good clinicians. We have access to amazing facilities that mimic high-end private practices. Everything at the University is built with the students in mind, and it really aids our education. I’ve wanted to be a physiotherapist since I was 12 years old, and Macquarie is helping me reach that dream.”

Brooke Hutchings
 Doctor of Physiotherapy student from Canada

Bachelor of Clinical Science

Designed to help you gain the professional skills you'll need for a future career in the medical, allied health or medical research professions. You'll learn the fundamentals of biomedical science before applying your knowledge to a human body system approach, in which pathology is taught alongside normal physiology and anatomy.

CAREER OPTIONS INCLUDE (AFTER FURTHER STUDY): dentist, doctor, health and medical researcher, health policy designer, pharmaceutical or biotechnology specialist, physiotherapist, veterinary surgeon.

KEY FEATURES:

- This is a fast-tracked degree, allowing you to complete your studies in two years by utilising the University's two regular sessions, as well as two shorter periods between these sessions.
- The course provides targeted preparation for those wishing to sit the Graduate Medical School Admissions Test (GAMSAT).
- The course units are focused on developing the professional practice skills needed for a career in health or medical research.
- You can gain practical experience in a healthcare setting or medical research facility through the capstone/PACE (Professional and Community Engagement) unit.
- You'll be taught by leaders in clinical practice and medical research in our state-of-the-art on-campus facilities.

WHAT YOU CAN STUDY: biological, chemical and physical science; clinical sciences; disease processes; evidence-based health care; professional practice; research design and skills; skills for healthcare and medical research settings; societal, cultural and global influences in health care; structure and function of the human body.

Bachelor of Psychology (Honours)

This prestigious four-year degree is highly respected and prepares you for entry into the psychology profession or higher degree research training. During your final honours year, you will complete a research thesis and advanced coursework units in psychology, enabling you to apply for entry to professional masters programs in specialist fields such as clinical psychology, clinical neuropsychology or organisational psychology. Continuation with the fourth year honours program is subject to meeting entry criteria.

CAREER OPTIONS INCLUDE: cognitive science researcher, criminology researcher, educational researcher, health department researcher, human resources consultant, psychologist, psychology researcher, training consultant.

KEY FEATURES:

- Secure workplace experience through PACE (Professional and Community Engagement) in a community setting that is relevant to psychology.
- This is one of Macquarie's most prestigious degrees, in which honours students are aligned with world-class research supervisors.
- You may progress towards registration as a psychologist, through either a one-year Master of Professional Psychology or a two-year Master of Clinical Neuropsychology, Clinical Psychology or Organisational Psychology.

WHAT YOU CAN STUDY: biopsychology and learning, cognitive processes, developmental psychology, principles of psychological assessment, psychopathology, research methods in psychology, social and personality psychology.

250 HOURS OF CLINICAL EXPERIENCE**Master of Clinical Audiology**

Develop skills in assessment strategies, rehabilitation and habilitation of people with hearing impairment, and the client-focused management of hearing impairment and related pathologies. Clinical training is provided as a formal part of the course with cooperation from audiological institutions.

CAREER OPTIONS INCLUDE: audiologist in private practices, hearing and speech clinics, hospitals, medical centres, physician practices, schools, universities and community outreach settings.

KEY FEATURES:

- Utilises the Macquarie University Speech and Hearing Clinic and the Australian Hearing Hub, which brings together researchers, government and hearing technology companies.
- Complete a minimum of 250 clinical experience hours as defined by the professional body, Audiology Australia, and satisfy the core knowledge and competencies to secure your admission to Audiology Australia.
- Learn from a wide variety of guest lecturers who are experts in their fields.

WHAT YOU CAN STUDY: adult hearing assessment, complex case management, hearing devices, objective assessment strategies, principles of management of childhood deafness, speech perception and production, strategies of aural rehabilitation, theoretical bases of audiology.

ENTRY REQUIREMENTS:

- Australian level 7 bachelor qualification or recognised equivalent in audio engineering, audio production, biological sciences, biomedical sciences, creative technology, health sciences, medical sciences, music studies, neurosciences, nursing, physiology, psychology, sound and music, speech and hearing, speech pathology, behaviour sciences, veterinary sciences, teaching or a related discipline.
- Applications for this course are competitive. Satisfying the admission criteria does not guarantee a place in the course.

Master of Speech and Language Pathology

Build a career in speech pathology which enables you to work clinically with individuals with developmental and acquired communication and swallowing disabilities. The course builds on fundamental knowledge from linguistics and psychology. Comprehensive supervised clinical placements provide you with opportunities to develop skills in assessment, intervention, service delivery and other aspects of professional practice.

CAREER OPTIONS INCLUDE: speech pathologist in a variety of settings including community health centres, hospitals, private practice, research centres and schools.

KEY FEATURES:

- This degree is fully accredited by Speech Pathology Australia.
- Offers extensive clinical practicum experiences, ensuring that you have maximum exposure to individuals demonstrating the full range of communication and swallowing disabilities.
- Includes on-campus placements at Macquarie University Hospital and the Speech and Hearing Clinic in the Australian Hearing Hub.

WHAT YOU CAN STUDY: clinical linguistic analysis, complex communication needs, developmental and acquired language disorders, developmental and acquired speech and swallowing disorders, disorders of voice and fluency, evidence-based practice, medical/surgical speech pathology, neuroanatomy and physiology for speech pathologists.

ENTRY REQUIREMENTS:

- Australian level 7 bachelor qualification or recognised equivalent.
- Recent successful completion of specified prerequisite units at tertiary level.
- Applications for this course are highly competitive. Satisfying the admission criteria does not guarantee a place in the course.

Law, security and intelligence

As a pioneer of interdisciplinary law study in Australia, Macquarie prepares you to look beyond law as a set of rules and procedures. You'll be challenged to think around problems and provide more innovative solutions – skills highly valued by employers. With the option to combine your law degree with other areas of study, you can open the way to a variety of careers including legal practice, private industry, government, education and community services. Our criminology study options will give you the tools and knowledge you need for a career in the ever-changing policing, intelligence and security sector. Our security studies, policing and intelligence units are taught by senior academics and leading industry professionals, allowing you to build professional contacts with experts in Australia and internationally.

Bachelor of Laws

As a Macquarie graduate, you will understand how the legal system works in a globalised world. The hallmark of Macquarie's law degrees is the emphasis on interdisciplinary study of the law in its broader context. You are taught to look beyond law as a set of rules and procedures or as a technical qualification. Learn about social, political, historical, cultural and economic factors that have influenced the law's development, as well as how the law is likely to change in the future.

CAREER OPTIONS INCLUDE: barrister, solicitor or employee in a wide variety of institutions including community legal centres, consultancies, consumer goods manufacturers, diplomatic service, education, financial institutions, health services, in-house counsel, legal practice, media organisations, NGO advocacy bodies, pharmaceutical businesses, professional service organisations, public service, regulatory bodies, start-ups, technology and telecommunications companies, trade unions.

MAJORS: Corporate and Commercial Law; Criminology; Environmental Law and Management; International Law and Global Governance; Media, Technology and the Law; Public Policy, Law and Governance; Social Justice.

KEY FEATURES:

- Interact with practitioners from top Australian law firms, community legal centres, governments, NGOs and a range of industries through a specially designed PACE (Professional and Community Engagement) unit.
- Join distinguished alumni who include some of Australia's leading judges, managing partners of law firms, diplomats, members of parliament and senior executives in the private sector.
- A unit on alternative dispute resolution involves role-playing mediations and negotiations, simulating scenarios you will encounter in professional life after graduation.

WHAT YOU CAN STUDY: civil procedure, constitutional and administrative law, contracts, corporate law, criminal law, equity, evidence, international trade law, professional ethics, property law, theoretical and moral reflections on legal institutions, torts.

Bachelor of Security Studies

This practice-oriented degree examines security, risk analysis and policy responses in the network society, preparing you to meet the needs of a rapidly changing sector. You will examine security from a range of perspectives including risk management strategies, emergency response, national resilience, business continuity planning, law enforcement and the use of military force.

CAREER OPTIONS INCLUDE: border protection officer, counter terrorism liaison officer, cyber safety adviser, fraud officer, intelligence analyst, military officer, operations officer, policy adviser, policy analyst, project officer, risk analyst, security analyst, protective security consultant.

KEY FEATURES:

- Work with experts from Macquarie's Department of Policing, Intelligence and Counter Terrorism (PICT) and have opportunities to build professional relationships with experts working in Australia and internationally.
- The degree combines academic study of security theories and issues with practical, analytical and technical skills.
- You'll use real-world analytical techniques to examine contemporary security challenges.

WHAT YOU CAN STUDY: all-hazards approaches to national security, business analytics, business continuity, contemporary national and international security challenges, continuity of government, counter terrorism, criminology, crisis response and emergency management, cybersecurity, global politics, information security, intelligence analysis, law enforcement operations, modern warfare, national security policy and strategy, peace and conflict, policing and crime, political violence, risk analysis, security theory, theories of political coercion.

WORLD TOP 150 LAW SCHOOL**Juris Doctor**

If you have completed a non-law bachelor degree (or recognised equivalent) and want an accredited postgraduate legal qualification that will prepare you for a range of legal professions in Australia and globally, this is the course for you. It continues Macquarie's tradition of providing interdisciplinary perspectives on the study of law. You will explore the law, discover its origins, assess its effectiveness and consider the need for reform.

CAREER OPTIONS INCLUDE: many graduates will pursue careers as either barristers or solicitors; however, a broad range of rewarding careers are open to law graduates including community legal centres, diplomatic service, financial institutions, multinationals, NGO advocacy bodies and public service.

SPECIALISATIONS: Corporate and Commercial Law, Environmental Law, International Law, Media and Technology Law, Social Justice.

KEY FEATURES:

- Gain the analytical, writing and advocacy skills required in the legal environment.
- Includes workplace experience through our PACE (Professional and Community Engagement) unit, which allows you to experience the law in practice.
- Offers dedicated graduate-level law units, ensuring you develop an advanced understanding of the law.

WHAT YOU CAN STUDY: applied legal ethics, civil and criminal procedure, constitutional law, dispute resolution processes and law, evidence, foundations of law, international law, research methodologies in law.

ENTRY REQUIREMENTS:

- Australian level 7 bachelor qualification or recognised equivalent.

GRADUATE WITH SKILLS IN DEMAND**Master of International Trade and Commerce Law**

Available to law and non-law graduates looking to understand the legal aspects of global trade and commerce. You will learn the legal, governance and policy issues relevant to international and domestic trade and commerce, fostering a broad and well-rounded understanding of the area.

CAREER OPTIONS INCLUDE: careers in multinational corporations; national businesses engaging in international markets; and organisations dealing with finance, trade and development issues.

KEY FEATURES:

- Develop an advanced and integrated understanding of a broad and complex body of legal knowledge in the area of international trade and commercial law.
- Apply sophisticated legal research skills to the resolution of specific legal problems and to the formulation and articulation of international law and policy reform and corresponding application in domestic law.

WHAT YOU CAN STUDY: international business transactions, international commercial law, international dispute settlement, international political economy, international trade and finance, law of international organisations, research methodologies in law.

ENTRY REQUIREMENTS:

- Australian level 8 honours qualification or recognised equivalent in law, business, commerce, economics, international relations or related discipline; or Australian level 7 bachelor qualification in law, business, commerce, economics, international relations or related discipline and 18 months relevant professional experience or recognised equivalent.

Master of Policing, Intelligence and Counter Terrorism

This degree covers a wide range of policing, intelligence, counter terrorism and cybersecurity issues in international and national contexts, including intelligence analysis techniques, mapping terrorist networks and addressing cybercrime. You will learn to think critically about these issues, and develop and implement strategies and tactics related to strategic policing and counter terrorism, drawing on recent case studies.

CAREER OPTIONS INCLUDE: careers in state and federal police services, military forces and security industry-related companies – particularly private and public sector organisations who deal with the analysis of risk and intelligence.

SPECIALISATIONS: Counter Terrorism; Cyber-Security; General Policing, Intelligence and Counter Terrorism; Intelligence; Policing.

KEY FEATURES:

- Study the latest developments and analyse the challenges, threats and opportunities confronting the Indo-Pacific region and the globe.
- Examine the impact of media and modern communications technology on policing, terrorism, intelligence gathering and security.
- You may be able to study this course by distance in your home country.

WHAT YOU CAN STUDY: Asia-Pacific security, border security and migration, cyber intelligence, cybersecurity, foundations of modern intelligence, international policing systems, organised crime, police leadership and governance, strategic law enforcement, terrorism issues, terrorist networks.

ENTRY REQUIREMENTS:

- Australian level 7 bachelor qualification or recognised equivalent in relevant field.
- If you have relevant and significant work experience related to the field of security, you may be able to finish the degree in a shorter timeframe.

“At Macquarie I was encouraged to think creatively and outside the box. While it might sound clichéd, this way of thinking helps with innovation and it develops the skills you need to think on your feet and to solve problems you will face in the real world. When I come up against a tough legal dilemma at work, the analytical methods I learned from Macquarie lecturers and tutors help me come up with great solutions.”

Andre Nguyen
Bachelor of Commerce with Bachelor of Laws
graduate from Australia
In-house counsel, Kaplan International, London UK

A close-up, slightly blurred photograph of a person's hands typing on a mechanical keyboard. The keyboard has vibrant, multi-colored backlighting in shades of blue, purple, and red. A black gooseneck microphone is positioned in front of the keyboard. In the background, a computer monitor displays a bright, colorful interface. The overall lighting is dim, with the primary light sources being the keyboard and the screen.

“My Macquarie course convener helped me find an internship at Janssen [a subsidiary of Johnson & Johnson], whose Australian headquarters are located near the Macquarie campus. During my internship I supported Janssen’s Corporate and Government Affairs department in developing a social media strategy. Janssen offered me a position after graduation. My initial tasks at Janssen actually resembled some of the assignments I had at Macquarie, which shows how practical Macquarie’s courses really are.”

Sabine Keller
Master of International Communication
graduate from Germany
Corporate and Government Affairs Associate, Janssen

Media, creative arts and communication

Our programs are designed to keep you up-to-date with emerging media and industry practices while ensuring you have a strong understanding of traditional mass communication. In the home of Australia's first media department, you'll learn from award-winning experts and have access to industry-standard facilities, including our multi-million-dollar media hub with professional screen, radio and dance studios, as well as state-of-the-art digital workstations for all production areas. Immerse yourself in writing, dance, music, screen production, management, games design or communication, and set yourself up for a career in the new media landscape.

Bachelor of Science

A Bachelor of Science from Macquarie offers you the flexibility to construct a specific program of study tailored to your intended professional career. This course is suitable if you are interested in science and seeking a degree with flexibility, or if you are interested in combining the study of science with commerce, law or another field.

CAREER OPTIONS INCLUDE: astronomical researcher, biomedical scientist, climate consultant, computing and modelling technician, environmental scientist, exploration geologist, forensic scientist, genetic counsellor, inventory manager, market researcher, meteorologist, national parks manager, networking and communications specialist, pharmaceutical researcher, soil surveyor, system designer, teacher (with further study).

MAJORS: Astronomy and Astrophysics, Biology, Biomolecular Sciences, Business Information Systems, Chemistry, Climate Science, Cognitive and Brain Sciences, Computing, Data Science, Decision Science, Development Studies and Culture Change, Electronics, Environmental Earth Science, Environmental Geology, Environmental Management, Geography, Geology, Geophysics, Human Biology, Human Geography, Information Systems and Business Analysis, Mathematics, Palaeobiology, Photonics, Physics, Psychological Science, Software Technology, Spatial Information Science, Statistics, Web Design and Development.

KEY FEATURES:

- Enhance your skills and problem-solving abilities through a strong focus on practical work in the field and in our laboratories.
- Modern laboratories offer exposure to the latest instrumentation and tools.
- Teaching by internationally recognised researchers ensures up-to-date scientific knowledge.

WHAT YOU CAN STUDY: advanced astronomy, applied statistics, behavioural genomics, chemical analysis, circuits and devices, computer simulation, ecology, electric and magnetic interactions, evolution and biodiversity, mathematics, molecular and medical biotechnology, organic and biological chemistry, physical and environmental chemistry, probability, programmable logic design, statistical data analysis.

* You may be eligible for Recognition of Prior Learning credits to reduce your course duration – mq.edu.au/international-RPL

You might be able to reduce your tuition fee by applying for one of our scholarships – mq.edu.au/international-scholarships

“I chose Macquarie because they collaborate with world-class organisations in measurement science; the National Association of Testing Authorities, Australia; and National Measurement Institute. The teaching is very high-tech here, and allows for easy communication with my lecturers and tutors.”

Ernest Velemu
Master of Laboratory Quality Analysis and
Management student from Papua New Guinea
Australia Award scholarship recipient

“Studying translating and interpreting at Macquarie, and participating in the University’s Global Leadership Program, gave me the opportunity to learn from experts across many sectors and network with people with diverse backgrounds. After achieving my masters, I have been building a career as an international affairs specialist and have had the opportunity to translate for many influential figures such as mayors and council chairmen. With growing bilateral ties between Australia and South Korea, I think there will be increasing benefits of having an Australian degree.”

Minjong Yu
Master of Translating and Interpreting
graduate from South Korea
Manager, Inheon International Relations Foundation

Society, history and languages

Let your studies take you into a world beyond academia. We're the only university in Australia to offer a full study of Egyptology, and our professionally accredited Bachelor of Planning is the Sydney region's first such degree with a strong social and environmental focus.

Our world-leading linguistics department and innovative human sciences program will help you make a difference in people's lives. We also offer the widest range of European languages in New South Wales, along with comprehensive Asian language options.

You'll see the bigger picture with our world-class courses in politics, history, cultural studies, philosophy, sociology, geography, planning, English, international studies, anthropology, Indigenous studies, translating and interpreting, or languages.

WHY STUDY SOCIETY, HISTORY AND LANGUAGES AT MACQUARIE?

INTERNATIONAL
CAREERS

Our international studies program prepares you to work for organisations such as the UN, UNESCO and the World Health Organization

LONGEST-
RUNNING

Our ancient history program is the longest-running of its kind in Australia

GLOBAL
RECOGNITION

Top 100 in the world for English, geography, linguistics and philosophy; top 150 in the world for history

(QS World University Rankings by Subject, 2015)

You may be eligible for Recognition of Prior Learning credits to reduce your course duration – mq.edu.au/international-RPL
 You might be able to reduce your tuition fee by applying for one of our scholarships – mq.edu.au/international-scholarships

SOCIETY, HISTORY AND LANGUAGES					
Undergraduate course	ATAR	Start date	Course duration	Indicative annual fee (AUD)	IELTS minimum score (or equivalent)
Bachelor of Ancient History  The longest-running program of its kind in Australia, this course is world-leading and broader in scope than any similar university degree. It incorporates Egyptology; ancient Near Eastern, early Christian and Jewish studies; as well as studies of the Graeco-Roman world. It includes unique opportunities to study artefacts and undertake field experience on campus and at overseas archaeological sites. courses.mq.edu.au/intl/BAncHist CRICOS CODE 079891G	92	Feb Aug	3 years	\$31,270	6.5 overall 6.0 in each band
Bachelor of Archaeology This multidisciplinary course crosses the traditional arts/science divide by integrating core archaeology and ancient history units with a broad selection of science units. This course has a strong practical focus. Opportunities are provided through a number of field and laboratory activities that complement your theoretical training. MAJORS: Anthropology, Biology, Biomolecular Sciences, Chemistry, Climate Science, Environmental Earth Science, Environmental Geology, Geography, Geology, Geophysics, Human Biology, Interactivity and Games, Palaeobiology, Software Technology, Spatial Information Science, Statistics, Web Design and Development. courses.mq.edu.au/intl/BArch CRICOS CODE 083740K	88	Feb Aug	3 years	\$31,270	6.5 overall 6.5 in each band
Bachelor of Arts – Psychology with Bachelor of Human Sciences Gives you enhanced career options and equips you with an understanding of human psychological process and community services, public health and allied health. It also provides the academic background for postgraduate study in physiotherapy and audiology. courses.mq.edu.au/intl/BA-PsychBHumanSc CRICOS CODE 083741J	83	Feb Aug	4 years	\$33,390	7.0 overall 6.5 in each band
Bachelor of Hellenic Studies Offers an interdisciplinary study of Greek culture, society and language throughout history. You will explore the role of Greek language in its cultural and sociohistorical setting, allowing you to develop proficiency in Modern Greek. courses.mq.edu.au/intl/BHelStud CRICOS CODE 083742G	75	Feb	3 years	\$31,270	6.5 overall 6.5 in each band
Bachelor of Human Sciences Prepares you for employment in areas where skills in public health policy, promotion and education, community-based care and disability services are in high demand. Employment in the community services sector is growing rapidly, and you will learn how to integrate knowledge from biology, psychology, linguistics, sociology, education and health to improve the lives of others. MAJORS: Cognitive and Brain Sciences, Communication Disorders, Community Services, Human Movement, Language and Professional Communication, Public Health: Policy and Promotion. courses.mq.edu.au/intl/BHumanSc CRICOS CODE 080285G	80	Feb Aug	3 years	\$31,270	6.5 overall 6.0 in each band
Bachelor of International Studies Combining the study of cultures and global society with the opportunity to learn a foreign language and study overseas, this degree opens the door to the languages and societies of a variety of countries across Asia, the Americas and Europe. It offers an opportunity for high-quality international experiences, with an in-depth experience of your target culture during a compulsory session abroad. courses.mq.edu.au/intl/BIntStud CRICOS CODE 054336G	80	Feb	3 years	\$31,270	6.5 overall 6.0 in each band
Bachelor of International Studies with Bachelor of Laws Allows you to combine your study of languages, as well as European and Asian cultures, with your interest in law. courses.mq.edu.au/intl/BIntStudLLB CRICOS CODE 059055J	96	Feb	5 years	\$33,390	7.0 overall 6.5 in each band
Bachelor of Planning The Sydney region's first undergraduate planning degree, this course has a strong interdisciplinary social and environmental focus, giving Macquarie graduates a distinctive edge compared to those from more traditional courses that focus on urban design and architecture. You will explore planning issues and practices in Australia and beyond. This degree is accredited by the Planning Institute of Australia (PIA). courses.mq.edu.au/intl/BPlan CRICOS CODE 060724M	78	Feb Aug	4 years	\$33,390	6.5 overall 6.0 in each band

MOST FLEXIBLE

Bachelor of Arts

This is the only course at Macquarie to offer such flexibility and as wide a range of subjects. You will have the opportunity to explore your interests in depth and participate in internships and workplace experience. Expert teachers and researchers are available to provide guidance on how to best tailor your course so you can develop the knowledge and skills needed to transform your passions into a career.

Graduates with a Bachelor of Arts are sought after by employers, as the course ensures you develop strong capabilities in a range of areas such as problem solving, research skills, creative thinking and communication – skills essential for success in the 21st century workplace.

CAREER OPTIONS INCLUDE: advocacy officer, choreographer, communications officer, historian, intelligence officer, international development adviser, journalist, multimedia specialist, policy adviser, politician, radio producer, social change activist, social/market researcher, teacher (with further study), television/film production assistant, translator and interpreter (with further study), web/game developer, writer.

GRADUATE DESTINATIONS

Macquarie's Bachelor of Arts graduates have forged exciting careers in many leading organisations including:

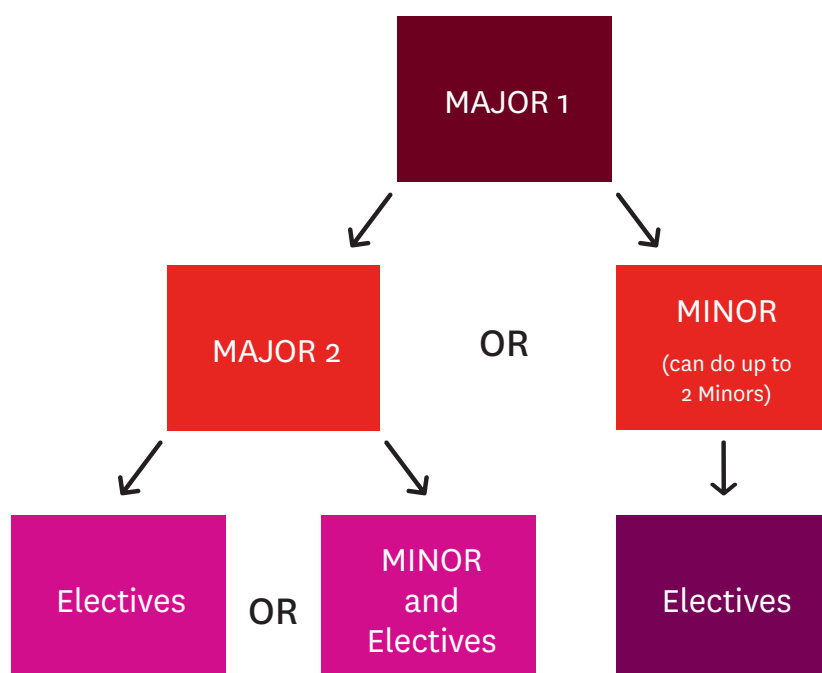

- ABC Commercial
- Allens
- Arts NSW
- Channel V
- Coca-Cola South Pacific
- Cochlear
- Deloitte
- Department of Attorney General and Justice
- Department of Defence
- Department of Education and Training
- Department of Family and Community Services
- EMI Music
- Fairfax Media
- Foxtel
- Hudson
- IBM
- KPMG
- Legal Aid
- Lend Lease
- LexisNexis
- Network Ten
- New South Wales Bar Association
- Nine Network
- NSW Health
- NSW Police Force
- Pacific Magazines
- Parliament of New South Wales
- Primary schools, high schools and universities
- Saatchi & Saatchi
- Sky News
- Sydney Living Museums
- Telstra
- Thomson Reuters
- Time magazine
- Toshiba
- UNESCO
- United Nations
- Virgin Australia
- Westpac
- Woolworths
- World Bank

KEY FEATURES:

- Our flexible course structure allows you to explore your interests across many disciplines.
- You will be taught by active researchers, published academics, and award-winning teachers and industry professionals.
- You will have the opportunity to connect with employers and communities via internships, work-integrated learning opportunities and study abroad experiences.

WHAT YOU CAN STUDY

Macquarie's Bachelor of Arts allows you to choose a major from more than 60 available. In your major, you will build particular skills and knowledge in a focus area. You can combine this with a second major, a minor or a selection of units (electives) from an area of interest. You can tailor any combination of interests to fit your desired career path.

NOTE: After choosing your major 1, you can also study electives instead of choosing a second major or minor. Electives are units that you can enrol in if you have the appropriate prerequisite knowledge.

Study Abroad and Exchange programs

Discover more about the world – and yourself – by spending a semester or two at Macquarie University. Get a taste of studying in Australia with easy access to more than 100 beaches and the Sydney CBD in close proximity. Choose one of our two options to make your dream of studying overseas a reality.

STUDY ABROAD FEES

AU\$8500*
per semester (4 units)

AU\$6450*
per semester (3 units)

*Tuition does not include accommodation, books and other costs.

STUDY ABROAD

Study Abroad is the perfect way to spend one or two semesters at one of Australia's leading universities – and you don't have to be enrolled in university. We offer a diverse and flexible Study Abroad program with a range of courses in many different subject areas. Many of our units include a significant practical or hands-on component, so your learning isn't restricted to the classroom or even our campus. You can choose to study a specialised certificate or mix and match from available units to suit your interest.

Certificate options include:

THE AUSTRALIAN CONTEXT

BUSINESS IN A GLOBALISED WORLD

CRIME AND COUNTER TERRORISM

GATEWAY TO ASIA

THE MEANING OF LIFE

MECHATRONIC ENGINEERING

SUSTAINABLE DEVELOPMENT

Check the website for a complete list of available certificates.

mq.edu.au/study-abroad

EXCHANGE

If you're studying at one of our partner universities, you can choose to spend one or two semesters experiencing a world-class education on our beautiful campus, with support from your home university and Macquarie. We offer a diverse and flexible study program with many different subject areas to choose from. The Macquarie Abroad team are ready to support you throughout your experience so you can be sure you're getting the most out of your time in Sydney.

Exchange students from Macquarie University's exchange partners do not need to pay tuition fees to Macquarie as you will pay the standard fees at your home institution.

mq.edu.au/exchange

“Being a PhD candidate at Macquarie gave me a golden opportunity to improve my academic career in such a high-quality and multicultural atmosphere. Working under supervision of an experienced supervisor and networking and collaborating with other researchers helped me to broaden my horizons and gain valuable experience in my research.”

Ehsan Saeedi-Shahri
PhD candidate in Electrical
and Electronics Engineering from Iran
International Macquarie University Research
Excellence Scholarship recipient

Higher degree research

Macquarie is bold and innovative. At 50 years of age, the University already has an enviable reputation for research excellence. Our researchers address many of the important questions facing the world, and do so with enthusiasm and excellence that is recognised nationally and internationally.

As a higher degree research candidate at Macquarie, you will have the opportunity to make an important contribution to the development of new knowledge in society, work alongside some of the world's leading researchers, and access some of the region's most outstanding facilities.

WHY UNDERTAKE HIGHER DEGREE RESEARCH AT MACQUARIE?

INTERNATIONAL
RECOGNITION

Macquarie was the first Australian university to align with international research training qualifications

WORK WITH
THE BEST

120 of our researchers are ranked in the top 1 per cent in the world

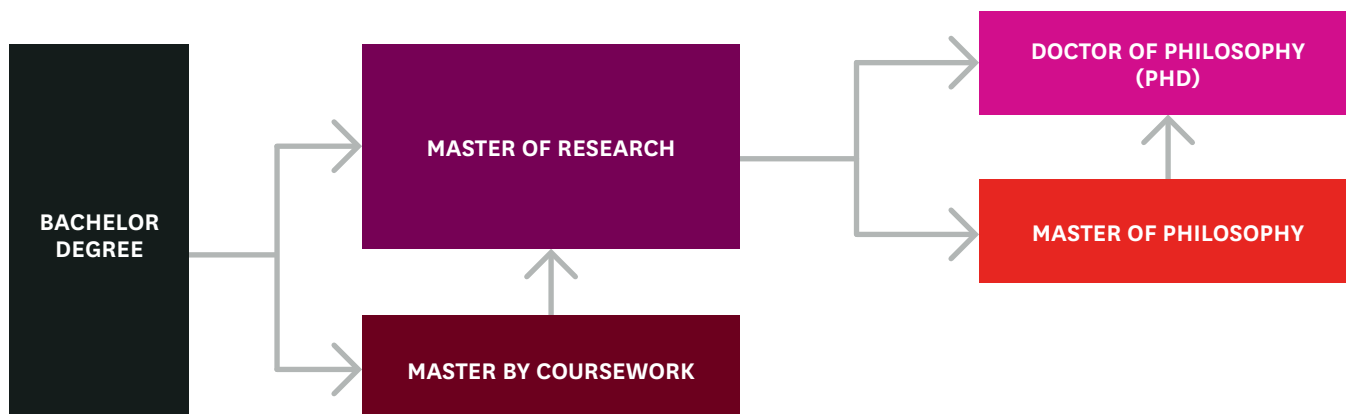

GLOBAL
RECOGNITION

Top 5 in Australia for international research collaborations

(Thomson Reuters Web of Science, 2008–2012)

Pathway to a PhD

Master of Research

Provides you with intensive research preparation before you begin doctoral study. Consistent with the internationally recognised Bologna model, this program prepares you to complete a PhD in three years – well short of the national average.

PROGRAM STRUCTURE

The two-year course is available in all of Macquarie's research areas, allowing you access to a variety of disciplines so you can construct a course relevant to your specific interests, subject to academic approval.

In the first year, you'll undertake advanced coursework units. If you successfully complete Year 1 and decide not to continue, you can exit with a Bachelor of Philosophy.

The second year is a masters-level postgraduate research training course. You'll specialise in research preparation and focus on a specific research topic. You are required to submit a thesis of 20,000 words for completion.

ADMISSION REQUIREMENTS

A bachelor degree from a recognised institution, at a specified level of performance – usually the equivalent of a credit average (65 per cent) in your final year (or 300-level). Some disciplines have extra admission requirements. If you hold an honours degree or a masters degree, you may apply for recognition of prior learning of up to 32 credit points (Year 1). This may allow you to complete the Master of Research in less than two years. Upon successful completion, you may be eligible for progression to one of Macquarie's research courses (see below).

courses.mq.edu.au/intl/MRes

Master of Philosophy

PROGRAM STRUCTURE

The period of candidature is two years, full-time equivalent. You are required to submit a thesis of 50,000 words for completion.

ADMISSION REQUIREMENTS

- Completed Macquarie's Master of Research with at least 65 per cent in Year 2 OR
- completed a masters (at least two years) from another institution with a major research component (around 50 per cent thesis, approximately 20,000 words) at credit level (65 per cent or greater).

hdr.mq.edu.au/master-of-philosophy

Doctor of Philosophy (PhD)

PROGRAM STRUCTURE

The period of candidature is three years, full-time equivalent. You are required to submit a thesis of 75,000 to 100,000 words for completion, depending on the discipline.

ADMISSION REQUIREMENTS

- Completed Macquarie's Master of Research with at least 75 per cent in Year 2 OR
- completed a Master of Philosophy OR
- completed a masters (at least two years) from another institution with a major research component (around 50 per cent thesis, approximately 20,000 words) at distinction level (75 per cent or greater).

hdr.mq.edu.au/doctor-of-philosophy

For direct entry to a Master of Philosophy or PhD program at Macquarie, all peer-reviewed research output will be taken into consideration under Rule 7 (10) of Macquarie's higher degree research rules.

UPGRADING TO A PHD

In certain cases as a Master of Philosophy candidate, you may be able to upgrade your research project to a PhD.

Normally at the end of the first year of your degree, you would apply for the upgrade to the department, which will consider whether your work and ability show sufficient value and potential to be worthy of this change.

If your request is granted, the time you have spent on your Master of Philosophy will count towards the total candidature of the PhD.

SCHOLARSHIP OPPORTUNITIES

Macquarie provides a wide range of generous higher degree research scholarships to support domestic and international candidates with a proven capacity for research. Scholarships vary in value and duration and may include a stipend to assist with living costs, tuition fee costs, overseas health cover, travel allowances or other research costs.

hdr.mq.edu.au/scholarships

JOINTLY SUPERVISED PHD PROGRAMS

Macquarie's global perspective is at the heart of everything we do and is embedded in our Strategic Research Framework 2015–2024. We prioritise deep, continuing relationships with international universities through joint research candidate supervision. Macquarie is proud to have high-quality research training partnerships with universities in Asia, the UK, Europe, and North and South America. Since 2007, we have hosted more than 210 cotutelle and joint PhD candidates from more than 110 universities in 30 countries.

hdr.mq.edu.au/cotutelle-and-joint-phd

SUPERVISION AND RULES

The research interests of potential supervisors for higher degree research programs can be found on the Supervisor Register.

mq.edu.au/mqsr

Rules for research degrees may be found in the Calendar of Governance, Legislation and Rules.

universitycouncil.mq.edu.au/legislation.html

Check our website for the most recent updates.

“Macquarie University International College utilises the world’s best practice in the design of its teaching and learning framework for our foundation and diploma programs. The academic content is engaging and highly accessible to students while supporting continuous English language development to provide our students with a high-quality educational experience.”

Professor Jim Lee
Deputy Vice-Chancellor, International

Macquarie University International College

Developed specifically to meet our entry requirements, Macquarie University International College can bridge the gap between your secondary school education and university studies. The College comprises two foundation programs and four diplomas, and is supported by the Macquarie University English Language Centre and the Macquarie University IELTS Test Centre. English language studies are integrated into the units in each of our programs to ensure you develop the language skills and competencies you need to be successful at university and in your career.

WHY STUDY AT MACQUARIE UNIVERSITY INTERNATIONAL COLLEGE?

SEAMLESS
PROGRESSION

Go straight from your pathway studies into your chosen
Macquarie University undergraduate degree

PACKAGED
PROGRAMS

Combine your foundation or diploma program with the Macquarie University
degree you intend to study as well as English language study, if required

PERSONAL
ATTENTION

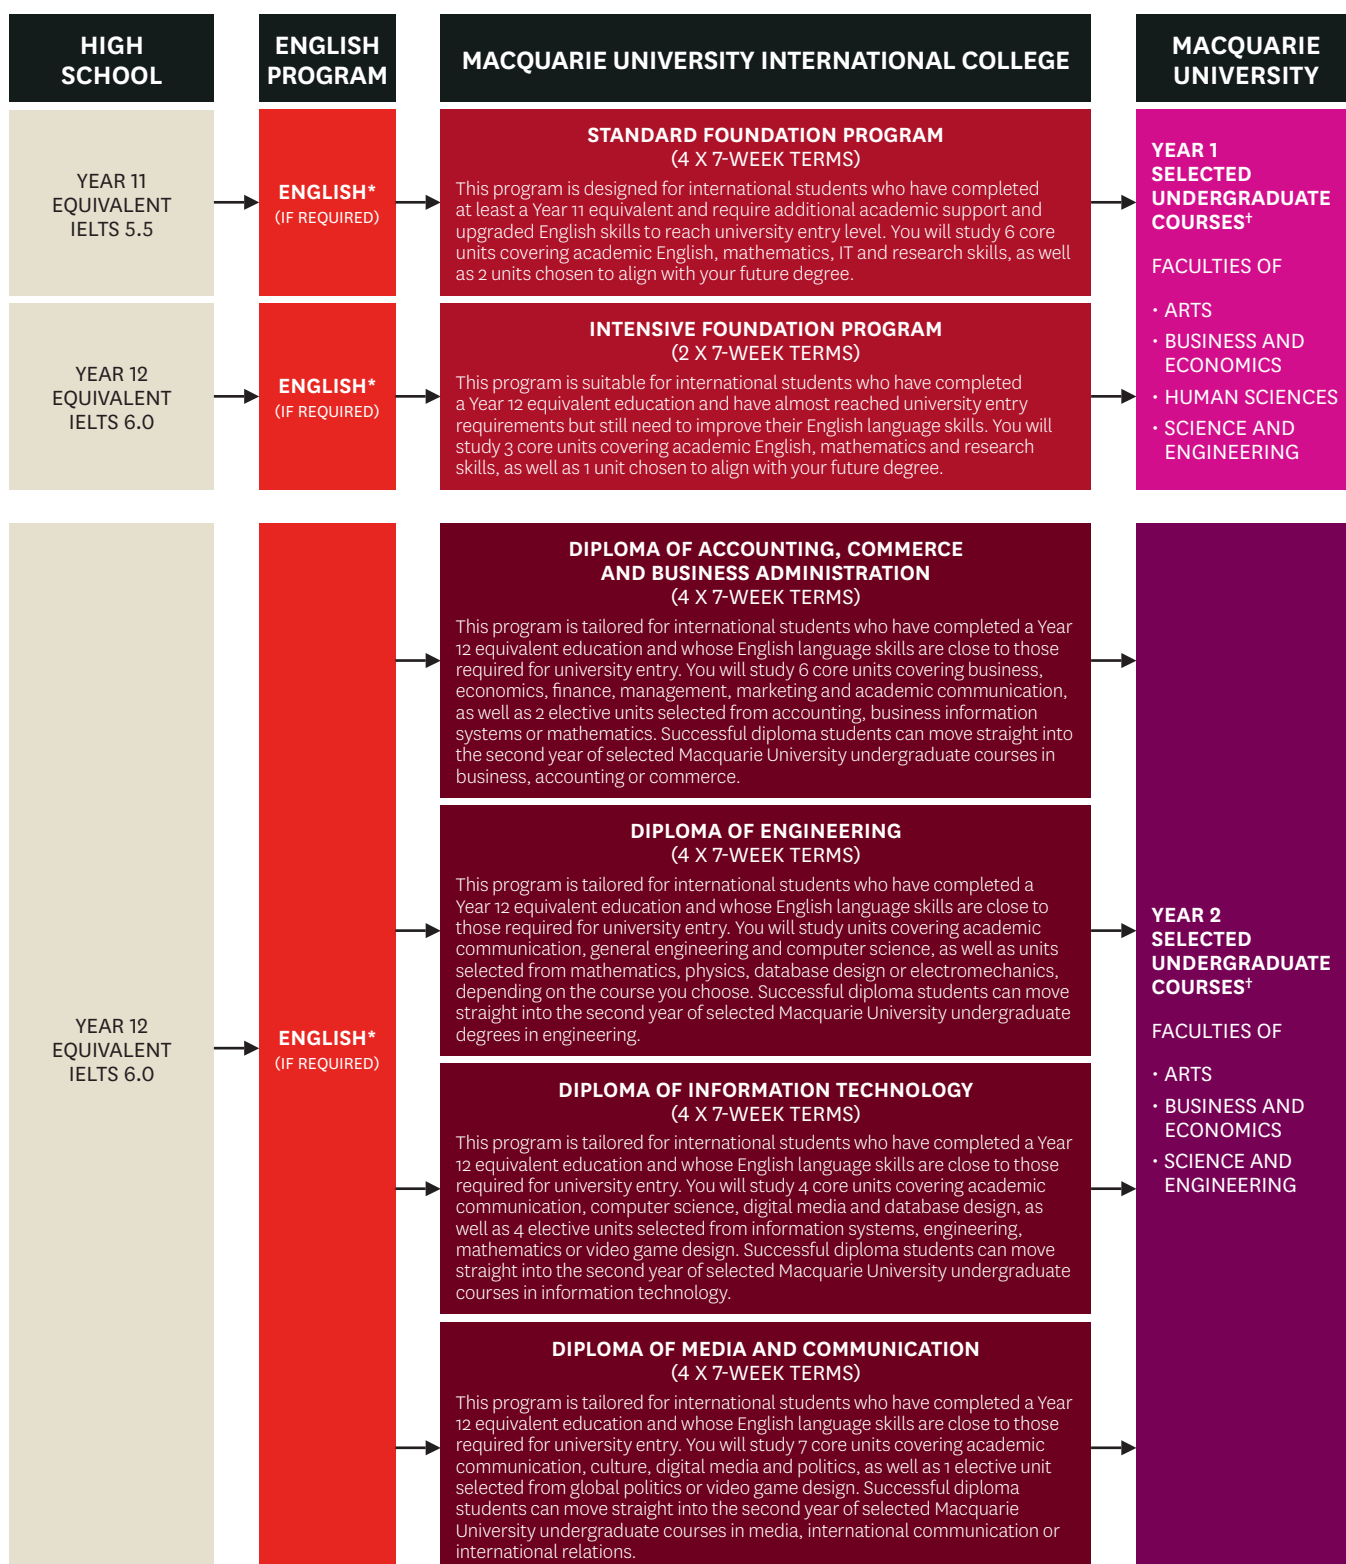

Our small class sizes ensure you get personalised support
from our highly qualified and experienced teachers

Pathways to a Macquarie degree

As a Macquarie University International College student, you can complete your foundation program or diploma and undertake English language studies, then continue straight into an undergraduate course on the same familiar campus.

mq.edu.au/college

YOUR PATHWAY PROGRAM SELECTION IS DEPENDENT ON YOUR ENGLISH AND ACADEMIC QUALIFICATIONS

*Preliminary English language study is required only if you do not meet the minimum English language requirements of a program (mq.edu.au/english-requirements). [†]For a list of specific degrees available, check mq.edu.au/college

English language requirements

WHAT LEVEL OF ENGLISH DO I NEED?

The standard English language proficiency required for entry into most Macquarie University degrees is IELTS 6.5 (or equivalent). Some courses (including education, law, and translating and interpreting) have higher requirements – you will find the required scores listed in the course tables in this guide.

There are several ways you can meet the English language requirements. The most frequently used methods are:

- passing an approved English test at the required level
- being a citizen of, or holding a qualification in English from, an approved country
- completing an English subject as part of selected secondary school education.

The information listed below is based only on the standard English language requirements. For full details, check the website.

mq.edu.au/english-requirements

DO MY TEST RESULTS MEET ENTRY REQUIREMENTS?

You have completed an approved English language test and have achieved the scores listed below.

You meet the standard English proficiency requirements

TEST	OVERALL	LISTENING	READING	WRITING	SPEAKING
IELTS Academic English	6.5	6.0	6.0	6.0	6.0
P-TOEFL (paper based)	570	53	52	59 Structure/Written Expression	4.5 TWE
I-TOEFL (internet based)	83	12	13	21	18
Pearson Test of English (PTE) Academic General	64	57	57	57	57
Cambridge English	Overall score of 176 with section minimum of 169				
CET General	Minimum overall score of C+ grade in Advanced English				
Occupational English Test (OET)	Grade B or above for all components (Listening, Reading, Writing, Speaking)				

Minimum scores apply. For details, check mq.edu.au/english-requirements

IELTS TESTING ON CAMPUS

The Macquarie University IELTS Test Centre is one of the largest in Australia, offering the IELTS test as well as a range of IELTS preparation courses and IELTS practice material.

Conveniently located at Macquarie University's North Ryde campus, the IELTS Test Centre offers IELTS tests approximately twice per month. More than 15,000 students pass through our doors annually.

Designed by experienced IELTS teachers and examiners, the interactive IELTS online and face-to-face IELTS intensive preparation courses will help you succeed in the IELTS Test. The centre's friendly staff will help you choose the best test preparation option for you.

DON'T MEET THE REQUIREMENTS?

Take the most direct route with the Macquarie University English Language Centre.

If you don't meet the English language requirements for entry to Macquarie, you can request an offer of study that includes an English preparation program at the Macquarie University English Language Centre.

You'll receive the best-quality language tuition, tailored to the degree you'll be studying at Macquarie. And because you'll be studying on the main Macquarie campus, you'll only have to apply for one student visa and enjoy life as a Macquarie student from the very beginning. See page 116 for more information.

Strong English language skills will help you succeed in your academic studies as well as in your future career. The Macquarie University English Language Centre has helped students improve their English skills for more than 25 years.

English language programs

ENGLISH LANGUAGE CENTRE

If you have not met the English language requirements for your chosen program at Macquarie University or Macquarie University International College, the English Language Centre (ELC) is here to help. We can recommend the appropriate program and length of study you will need based on your current English language level.

You can apply to have your English program, pathway program and degree included in one packaged offer with competitive pricing. This gives you the benefit of a reserved place at the College and in a Macquarie University course.

PREPARE FOR YOUR STUDIES

The ELC is designed to help you improve more than just your English. We also help with the skills you need to succeed at university as well as in your career. We offer many options including:

- **University Entry English Preparation Program**
Introduces you to Macquarie University courses through a 5-week or 10-week program that will help you get used to the cultural and academic environment as well as develop many of the academic skills you will need in your studies.
- **Academic English**
Equips you with the English language and study skills you need for successful academic study (four levels available).
- **General English**
Helps you develop your confidence in communicating effectively with other English speakers, and gives you an introduction to modern Australian society, culture and people (five levels available).

elc.mq.edu.au

DID YOU KNOW?

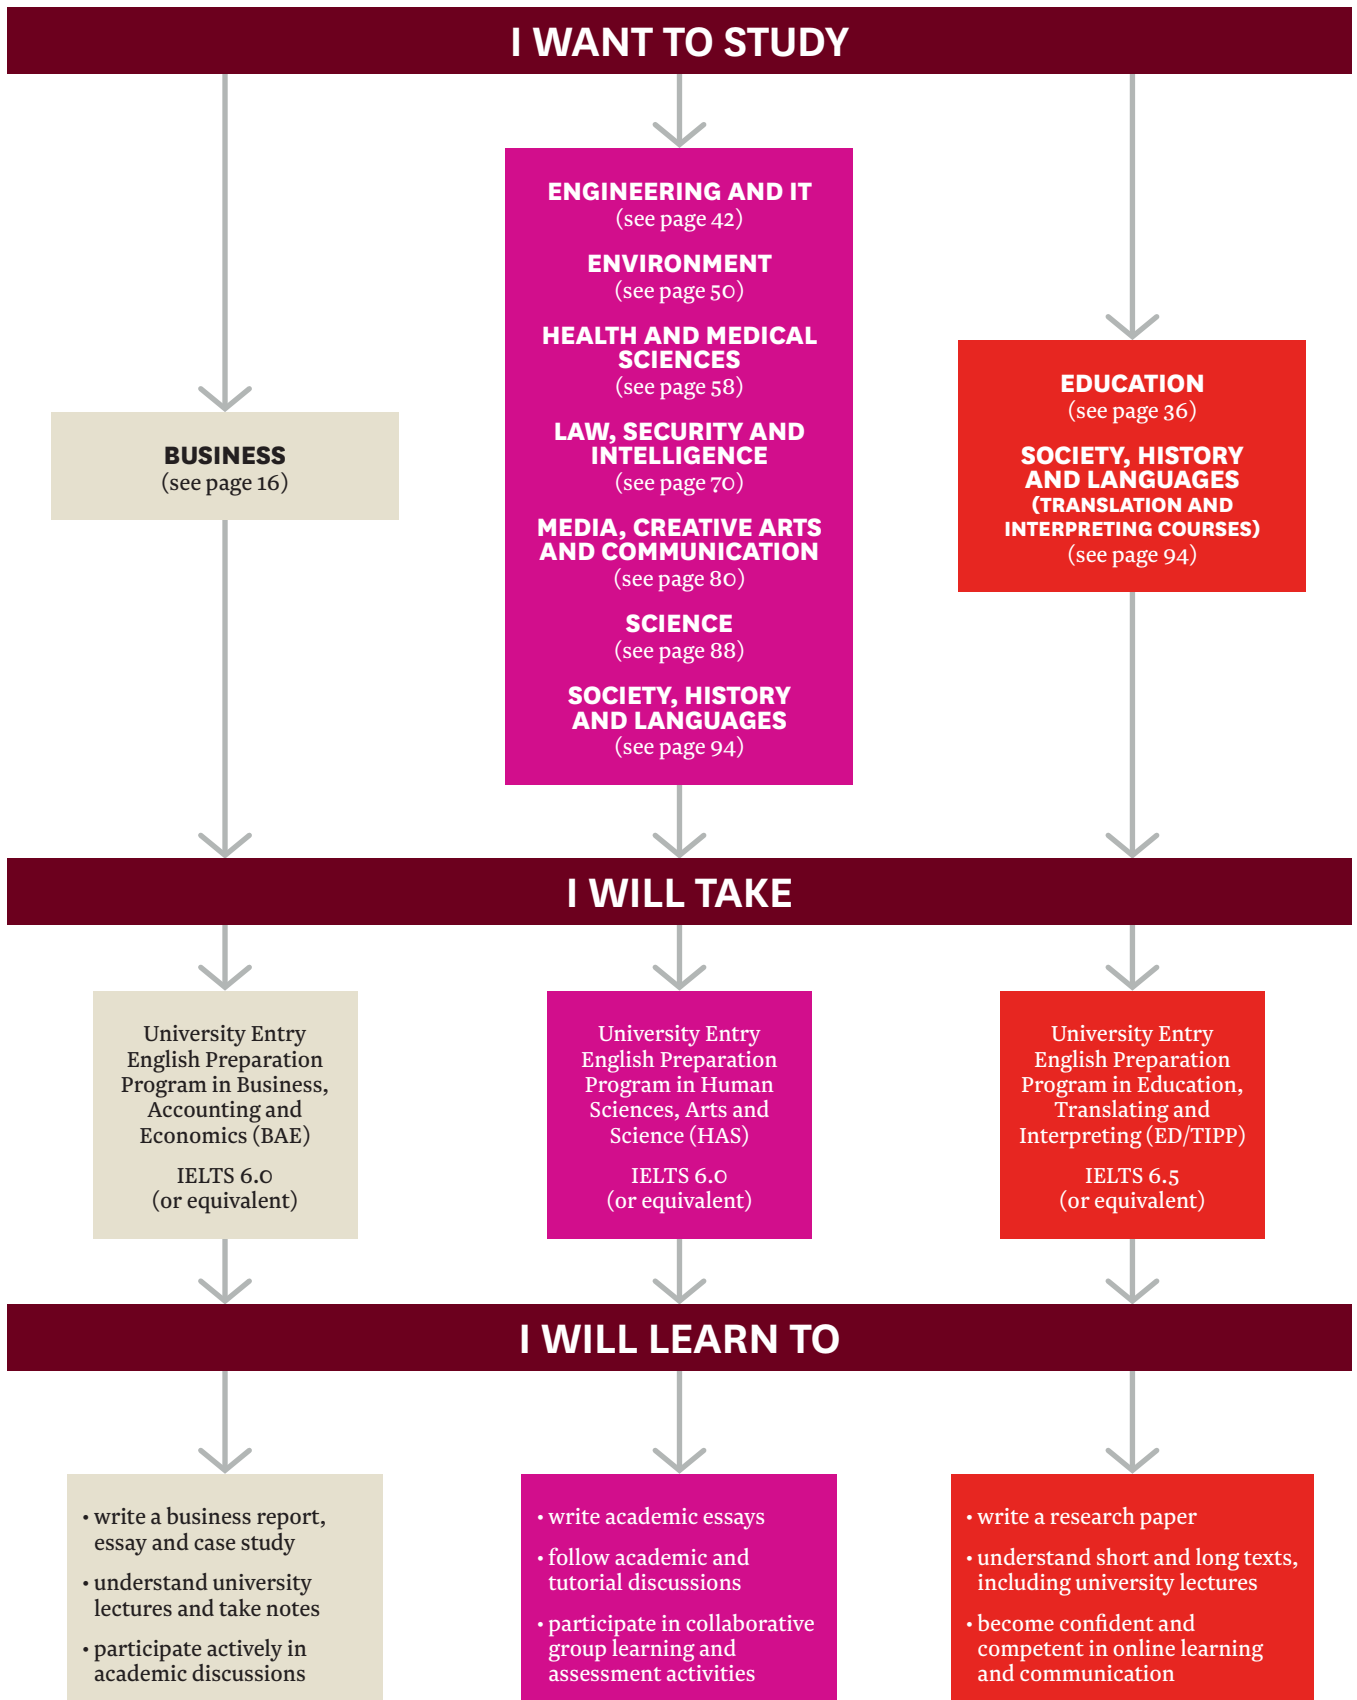

Our students do better:

- 96 per cent succeed in continuing to their chosen Macquarie course
- once they reach university, their average GPA is 2.64/4.0, compared with 2.34/4.0 from other pathways
- they achieve not only academic success but also career success.

English language preparation for a Macquarie degree

Get a head start on your studies with discipline-specific preparation programs. You will improve your English skills, learn how to effectively interact with your peers and academics, prepare for the assignments you will encounter in your studies, and learn vocabulary specific to your degree. After successfully completing one of our courses, you'll be able to go straight into your Macquarie University course confident in your abilities – without taking the IELTS test.

A Macquarie degree is about far more than helping to advance your career. It also encourages and supports you to make a genuine difference in the world.

Transform yourself

BECOME A GLOBAL CITIZEN

“I learned to be a better communicator, a team player and a more responsible person. These attributes are important for me to work well with people in my future career.”

Jia Tian Teo

Bachelor of Actuarial Studies student from Malaysia

“Employers today really value well-rounded individuals,” says Malaysian Bachelor of Actuarial Studies student Jia Tian Teo. “I wasn’t involved in any extracurricular activities before university, but my experience at Macquarie has taught me it’s never too late to start.”

Determined to stand out in the job market after graduation, Jia Tian has seized as many opportunities as possible during her study at Macquarie.

She has applied her degree knowledge to volunteer roles with the Malaysian Students Council of Australia and Mini Money Matters, an Enactus Macquarie program that teaches financial literacy skills to children.

Like many international students at Macquarie, Jia Tian speaks highly of the University’s Global Leadership Program (GLP), through which she gained cross-cultural understanding and leadership skills. “Through the GLP, I gained knowledge on company cultures, presentation skills and how to be more confident when I speak,” she says.

Thanks to the skills she gained through the GLP, Jia Tian got the opportunity to put her actuarial skills into practice during a three-month internship at Asia Capital.

But above all, Jia Tian says it was the opportunity to volunteer in Vietnam that

has brought her the most benefits both professionally and personally.

Supported financially by the University’s generous travel grants, Jia Tian spent four weeks in Hanoi working with Know One, Teach One (KOTO) – one of the many international experiences available to Macquarie students through the PACE (Professional and Community Engagement) program. KOTO empowers disadvantaged youths aged 16 to 24, with volunteers like Jia Tian helping to train them in life skills, communication and practical skills that open up employment opportunities in the hospitality sector.

Jia Tian says working with KOTO broadened her views and gave her practical skills that will benefit her in her career.

“There’s only so much that you can gain out of a classroom, and so little of the world that can be learned through a textbook,” she says.

Attributing much of her success so far to the skills she has acquired both in and out of the classroom at Macquarie, Jia Tian strongly recommends that students make the most of the opportunities available to them.

“Go for it,” she says. “Join an organisation, volunteer, be part of a PACE project; the opportunities at Macquarie are limitless.”

PRACTICAL EXPERIENCE WITH PACE

Macquarie University's unique PACE (Professional and Community Engagement) program gives you practical experience while you're still a student so you can get that all-important head start on your career.

With PACE you could see yourself:

- interning at international corporations like Microsoft, EY or GlaxoSmithKline
- working with Indigenous tourism operators in northern Australia
- helping develop school and community health campaigns in Peru
- assisting with a land rights claim in the jungles of Borneo.

mq.edu.au/pace

GIVE YOURSELF A REAL ADVANTAGE

Stand up for global issues and stand out from the crowd with Macquarie's Global Leadership Program (GLP). An extracurricular program that can be undertaken alongside any course at Macquarie, the GLP provides you with outstanding opportunities to enhance your study experience by developing important leadership and cross-cultural skills. You'll forge lasting relationships to grow your future network, and GLP is the first and only extracurricular program that will appear on your transcript, the document that details your university achievements.

mq.edu.au/glp

EXPLORE THE WORLD

As an international student at Macquarie, you'll have the opportunity to become even more of a world citizen as part of your degree through our Student Exchange program. You can choose to study overseas for just a couple of weeks, a whole session or even a year at more than 150 partner universities in more than 40 countries. We make it a priority to support your globe-trekking ambitions by having one of the most generous travel grant schemes of any university in Australia.

students.mq.edu.au/exchange

PHOTO: SUPPLIED

Macquarie University has one of the most generous scholarship programs in Australia. Around \$6.7 million is awarded to students each year between domestic, international and Australian Government scholarships.

Explore your opportunities

SUPPORT THROUGH SCHOLARSHIPS

“My scholarship definitely helped me both financially and professionally.”

Adele Jin

Master of Environmental Planning and Postgraduate Diploma of Sustainable Development graduate from China

Environmental Reporting Coordinator at DTZ

Macquarie University International Scholarship recipient

For graduate Adele Jin, Macquarie’s range of international student scholarships was the ‘cherry on top’ of the University’s excellent academic courses.

“I still vividly remember how excited I was when I got my scholarship offer from Macquarie,” Adele says. “I was one of four Chinese students to receive it that year, so it was a real honour.”

Having always been passionate about the environment, Adele chose postgraduate study at Macquarie to build specialist knowledge on top on her Chinese bachelor degree.

“Macquarie offers a lot of professional streams, and I found the environment courses were more tailored than at other universities,” she says. “The lecturers I had were very knowledgeable, and I got to go

on some amazing field trips to explore the Australian flora and fauna.”

“I also met a lot of friends at Macquarie who shared the same interest in the environment,” she adds. “They helped broaden my mindset about working in this field.”

Now an environmental reporting coordinator for one of the world’s largest real estate services companies, Adele is turning her passion for the environment into a successful career.

She says that the scholarship was not only an excellent addition to her CV, but also a great motivator for working hard in her studies.

“The scholarship really motivated me to keep up the good work at uni,” she says. “It definitely helped me both financially and professionally.”

SCHOLARSHIP OPPORTUNITIES

In 2015, Macquarie University awarded around \$2.5 million and the Australian Government invested around \$1.7 million in scholarships for commencing international students who chose to study at Macquarie. There's a wide range of scholarships for students from all backgrounds, so be sure to check out what's on offer – a small selection is below. Check the website for regular updates, as well as eligibility and application details.

AUSTRALIAN GOVERNMENT SCHOLARSHIPS

- Australia Awards
- Endeavour Scholarships and Fellowships

Knowing you're safe and supported lets you focus on your studies. At Macquarie, we offer a diverse range of accommodation options to suit every need, as well as dedicated staff to help you transition to university life.

Welcome to your new home

STUDENT ACCOMMODATION

Safe, supportive and fun accommodation makes all the difference to your university experience. The friendly team at Macquarie Accommodation Services can help you find the best housing options for you, including female-only or male-only accommodation.

If you need a temporary place to stay when you first arrive, we can help you with that as well. We'll even pick you up from the airport in Sydney – for free.

accommodation.mq.edu.au

Macquarie University Village combines independent, apartment-style living with a busy social events calendar and a 24-hour support network. Enjoy living just minutes from class.

Located within walking distance to campus, **Dayman Apartments** offer modern facilities and a secure, quiet and supportive environment in which to live and study.

Dunmore Lang College is an all-inclusive college with a strong focus on artistic, recreational and educational pursuits. Full board options, gym membership and tutoring are included.

PRIVATE ACCOMMODATION

If you prefer to find your own accommodation, we have an online database that provides details of many properties currently available for rent near campus. It's best to visit any private accommodation in person to make sure it suits your needs before signing a rental agreement.

HOMESTAY

Stay with a friendly Australian family and get to know how locals live. The host Australian family will provide you with your own fully furnished bedroom, a quiet place to study and cooked meals. Homestays are provided through three University-approved agencies that carefully select suitable hosts.

UNDER 18?

If you're under 18 years of age when you start your studies, you have three options for accommodation:

- live in Australia with your parent or legal guardian
- live in Australia with a suitable relative over 21 years of age who is nominated by your parent or legal guardian
- live in an approved Homestay and have your welfare arranged by the University.

Your parent or legal guardian will need to provide information to the University, and we will issue a Confirmation of Appropriate Accommodation and Welfare (CAAW) letter so you can obtain a student visa.

PHOTO: DAVID FROUSE,
THE PHOTOGRAPHY BUSINESS

Robert Menzies College offers both self-catered and fully catered accommodation in private, fully furnished study bedrooms with shared bathrooms or private ensuites.

PHOTO: SUPPLIED

Situated adjacent to campus, **Macquarie Parklands** provides fully furnished apartments, accommodating up to four students in a social atmosphere.

PHOTO: DAVID FROUSE,
THE PHOTOGRAPHY BUSINESS

Featuring 22 self-catered, fully furnished, two-storey townhouses, **Herring Road Apartments** are situated on campus directly across the road from Macquarie Shopping Centre.

PHOTO: BRETT BOARDMAN

Iglu offers modern student accommodation right next to Chatswood Station, a 10-minute train ride to Macquarie University and only 20 minutes to central Sydney.

Macquarie's park-like campus is home to some of the best facilities in the world to help you study and learn even more effectively. We've invested more than \$1 billion in facilities in recent years, with more to come.

Space to explore

WORLD-CLASS FACILITIES

MACQUARIE UNIVERSITY LIBRARY

Macquarie University library features high-tech robotic cranes that deliver your books in minutes. As a Macquarie student you'll receive access to more than 1.8 million print and electronic resources; group and quiet study areas; presentation practice pods; as well as a café.

mq.edu.au/library

MUSE

MUSE – Macquarie University Spatial Experience – is a new social learning space. Supporting students who learn in many different ways, it allows individual study to coexist with group work.

mq.edu.au/muse

MACQUARIE UNIVERSITY HOSPITAL

As Australia's only not-for-profit private teaching hospital on a university campus, this high-tech facility is setting new benchmarks in health care. A world leader in neurosurgery, it houses the country's first and only operational gamma knife, as well as other state-of-the-art equipment. The hospital also includes a clinic, so you'll have access to high-quality health care without leaving campus.

muh.org.au

SPORT AND AQUATIC CENTRE

Macquarie's sport facilities are some of the best university facilities in the country, offering a state-of-the-art health club; heated 50m outdoor and 25m indoor swimming pools; football and soccer fields; tennis, basketball and squash courts; a martial arts area; a gymnastics hall; and more.

mq.edu.au/sport-and-aquatic-centre

CAMPUS SUSTAINABILITY

Macquarie's vision for sustainability is to be ecologically sound, socially just and economically viable in all of our activities. We encourage responsible consumption of energy, water, food and transport. Sustainability is a guiding theme for our learning and teaching, energy efficiency and waste management practices.

mq.edu.au/sustainability

STUDY IN THE CITY

In addition to our main campus in North Ryde, we will also offer a selection of world-class programs in the city.

GETTING TO MACQUARIE

More than 4000 parking spaces are available on campus, and an annual parking sticker entitles you to unlimited use of the parking facilities. Otherwise, you can pay casual parking rates each time you enter. Several roads with dedicated bike lanes allow you to enjoy a relaxed ride to campus. And when you arrive, you can take advantage of our free, secure and undercover BikeHubs located all over campus.

mq.edu.au/transport

PUBLIC TRANSPORT OPTIONS

The Macquarie University train station is located on the North Shore and Northern Line, just 30 minutes away from the Sydney CBD by train – giving you plenty of uninterrupted study time to and from campus. Buses also travel to Macquarie from many areas of Sydney.

transportnsw.info

University is about more than just academic study. Macquarie is a vibrant community, allowing you to connect with like-minded people and discover alternative perspectives.

Experience life at Macquarie

STUDENT LIFE

STUDENT GROUPS

Student life isn't all about classrooms and exams. It's also about making new friends, enjoying new experiences and learning about diverse cultures. With more than 170 student groups and sport clubs, Macquarie offers ample opportunity to meet new people, develop personal skills such as communication and teamwork, test ideas, and experience other cultures.

checkin.mq.edu.au

SPORT CLUBS

If fitness and team sport are your kind of thing, join one of our many sport clubs. We offer a range of competitive and casual sporting programs including cheerleading, cricket, fencing, hockey, quidditch, rowing, rugby union, scuba diving, soccer (football), squash, swimming, table tennis and water polo. We even offer surfing lessons!

campuslife.mq.edu.au/clubsport

DIVERSITY ON CAMPUS

Macquarie is an inclusive campus with students from more than 100 countries. We offer specific support services to students from culturally diverse backgrounds, students with disability, Indigenous Australians and GLBTIQ students.

mq.edu.au/diversity-and-inclusion

CULTURAL EVENTS

You'll always find something of interest at Macquarie, whether it's our weekly farmers' market, movie screenings, exhibits at our own Art Gallery or an array of events taking place on campus each week. We also host specialty lectures, theatre performances and cultural festivals on and off campus.

mq.edu.au/about/events

CAMPUS HUB

With a wonderful small village feel, Macquarie has just about everything you need right on campus. We offer a variety of eating options in our food court, as well as a bookshop, a convenience store, a postal service, travel agents, a hair salon and a bar. Across the street you'll find even more options at Macquarie Centre – which includes more than 250 shops, food courts, grocery stores, a movie theatre, a bowling alley and even an ice rink.

mq.edu.au/campus-hub

RELIGIOUS AND FAITH SUPPORT

Australia is a multicultural society where you're free to practise any religion you want. Most of the world's religions are represented in Sydney, and you'll find many places of worship near the Macquarie campus. As a Macquarie student, you'll be supported in your faith through a number of religious clubs and societies, as well as a multi-faith prayer room.

mq.edu.au/religion

CAREER ADVICE

It's never too early to start thinking about career options. We hold careers fairs on campus twice a year to help you explore your career options, build industry contacts and talk directly to a wide selection of employers. The Career and Employment Service can also help you prepare a résumé, identify career options and the skills necessary for your chosen career, and connect you with employers and industry bodies.

careers.mq.edu.au

SUPPORT IS ALWAYS ON HAND

Starting university is an exciting time, and adjusting to university life can sometimes be challenging. To help out, Macquarie offers a range of resources and support programs that you can access throughout your time on campus.

- Your **safety** is our number-one priority. Help points are available across campus with a direct line to our security service, and we offer a free night-time shuttle bus while classes are in session. We take care of you 24 hours a day.

mq.edu.au/international-safety

- **Mentors@Macquarie**, one of Australia's longest-running peer support programs, helps you adjust to university life, find your way around the campus and improve your skills.

mq.edu.au/transition

- **Campus Wellbeing** facilitates or offers a range of support services – including counselling, disability, welfare and advocacy – that you can call on at any time during your studies.

campuslife.mq.edu.au/campuswellbeing

- The **Learning Skills** service offers free workshops, drop-ins and online resources on academic writing, referencing, exam strategies and more.

mq.edu.au/learningskills

- The **Numeracy Centre** offers assistance with mathematics and statistics. You can choose from a free drop-in service, weekly workshops for some first-year courses, bridging programs, preparatory courses and some online resources.

University language can sometimes be difficult to understand. Here's a quick guide to help you make sense of what we're saying.

What does it all mean?

GLOSSARY OF TERMS

ATAR: An Australian Tertiary Admission Rank (ATAR) is the primary ranking used to determine admission of students to Australian universities. It ranks the overall academic achievement of a student in the final year of high school against other students. You can find a table with equivalent ranks from selected countries on page 14.

BACHELOR DEGREE: The award issued by higher education institutions to candidates on successful completion of a set program of undergraduate units.

COURSE: A course is your roadmap towards a degree. Your course will include a minimum number of credit points and required units. Some courses, such as the Bachelor of Applied Finance, are made up of a specific sequence of units that must be completed in order to graduate. Other courses, such as the Bachelor of Science, allow you to choose from a wide range of majors.

CREDIT POINT: In order to graduate, you need to have completed the specified number of credit points for your degree. Each credit point equals about three hours of work per week including class time.

CRICOS: The Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS) lists all Australian education providers offering courses to people studying in Australia on student visas as well as the courses offered. International students may only enrol in courses registered on CRICOS.

DEGREE: A degree is the award you receive when you successfully complete a specified number of credit points as determined by the University.

DOUBLE DEGREE: A double degree allows you to study two complementary, or completely different, courses. Double degrees increase your career flexibility, and can be completed faster than two single degrees.

FACULTY: An administrative grouping of research, academic and professional staff and students based on the area they teach, support and study.

GPA: A grade point average (GPA) is a calculation reflecting the overall grade of a student. Based on units completed at Macquarie, it does not take into account recognition of prior learning.

GRADUATION: A formal ceremony where you receive your degree.

IELTS: The International English Language Testing System (IELTS) is an English language test. IELTS test scores are one form of evidence of English language proficiency accepted by Macquarie University. You can find a table with equivalent test scores on page 114.

MAJOR: A major is a particular area of study that you focus on within your course. For example, in the Bachelor of Arts you can choose from more than 50 majors including English, Marketing, Music or Politics. Majors are made up of a structured sequence of units. If you're having trouble choosing between two areas of interest, you have the option of completing a double major.

MINOR: Minors are made up of fewer credit points than a major. They allow you to study two complementary, or different, areas that interest you.

PACE: PACE (Professional and Community Engagement) units are designed to deepen knowledge and broaden experience by applying academic study to real life. These are exclusive to Macquarie and can include internships, special projects and domestic or overseas travel experiences.

PARTNER UNIVERSITY: An institution that has entered into a formal written agreement with Macquarie University to facilitate higher degree research programs or exchanges.

POSTGRADUATE: A course of academic study higher than a bachelor degree.

RECOGNITION OF PRIOR LEARNING (RPL): General recognition, given in the form of Macquarie credit points, for accredited tertiary-level studies undertaken at other institutions. In some cases, informal learning experiences can also be used for credit points.

SESSION: A session is a period of study, which some universities call semesters. At Macquarie, we have three sessions: Session 1 runs between February and June, and Session 2 runs between August and November. Session 3 is intensive and runs between December and February.

SPECIALISATION: A specialisation is a particular area of study that you focus on within your postgraduate course. For example, in the Master of Information Technology you can choose to specialise in Internetworking and Cybersecurity, or Management. Specialisations are made up of a structured sequence of units which are set by the University.

STUDENT VISA: An authorisation permitting people who are not Australian citizens or permanent residents to come to Australia for the primary purpose of studying, as defined by *Migration Act 1958*.

UNDERGRADUATE: A course of academic study for a bachelor degree is regarded as an undergraduate course.

UNITS: Units are subjects that you study. Most full-time students take four units – each worth a fixed number of credit points – per session.

What you need to know

FREQUENTLY ASKED QUESTIONS

HOW MUCH WILL MY INVESTMENT COST?

In most cases, you will pay a commencement fee for your first academic session when you accept your offer of study. You will need to pay tuition fees for subsequent academic sessions by the due date in each session. Estimated annual tuition fees are listed throughout this guide, based on the number of credit points required for full-time study. For a quick list of all courses, see page 128.

We review and may increase our per-credit-point fees each year. It is important to realise you need to pay the fee for your academic year and you may be subject to other fees and charges. Visit our website for up-to-date information.
