“At GELI, you learn English in a professional environment from native speaking teachers who will support you every step of the way. My favourite part was the fun activities organised by the staff. “I was surprised by the quality of the advanced technology used in the classroom. In my country, we just sit and listen to the teacher, but here we have projectors, interactive whiteboards and nice lecture theatres which help us to learn in a new, easy way. Getting to work in the real environment was the part I most liked about my degree.”
